TEN REASONS

WHY OBAMA IS BAD NEWS FOR THE SECOND AMENDMENT

- 1. Obama supported a shutdown of all gun stores** within five miles of a school or park – a move that would have closed 99% of gun stores nationwide.
- 2. Obama supported Ted Kennedy's ammo ban** to outlaw all deer-hunting ammunition.
- 3. Obama green-lighted discussions that would lead to a U.N. gun ban treaty**, signaling the U.N. that America would support steps toward global civilian disarmament.
- 4. Obama is one vote away from a Supreme Court gun-ban majority** to rubber-stamp gun control laws and overturn the Second Amendment.
- 5. Obama's regulatory "czar," Cass Sunstein, wants to ban hunting** and says animals should be represented in court.
- 6. Obama is trying to slash funding for the Armed Pilots Program** designed to prevent terror attacks.
- 7. Obama voted to allow reckless lawsuits** designed to bankrupt American gun makers.
- 8. Obama's administration illegally smuggled guns to Mexican drug lords**, then imposed illegal gun registration in four states, blaming gun owners for his administration's insane policy.
- 9. Obama's Attorney General Eric Holder said we need to "really brainwash people"** against guns.
- 10. Obama admits he's coming for our guns**, telling Sarah Brady, "We are working on [gun control], but under the radar."
